How to activate office 365 for free on android. Download office 365 for free and activate it without any software. How to activate microsoft office 365 free.

In a previous post here, I have shown you guys how to download and install Office 365 Multi-language using online installer downloaded directly from the Microsoft homepage. The new installation includes a 30-day free trial license by default. After that, most important features will be disabled. It means your work will be discontinued unless you pay for Office 365 subscription. If you are in financial difficulties, this is so bad, I know. To help you overcome this problem, I recommend using KMS license key to activate your Office. For those of you guys who don't already know, KMS license is almost similar to the trial one. It is totally free, legal and is valid for 180 days only. But don't worry about the period because it can be renewed easily. This step is optional if your trial license was expired. However, if it is still valid, you need to remove it. Because in some cases, after you activate your Office using KMS license, important features are resumed but the expiration notification still remains. Follow instructions in this post to uninstall the trial license. Make sure your computer is ready You need to check your internet connection again and make sure that the Windows Update service is turned on. KMS license has to be verified by making a connection to my KMS servers before it can be used. So you need to check if the KMS server is blocked or not. This is pretty simple. Just open your internet browser and try visiting this site: . If it is visible, this means my KMS server is not blocked. Activating your Office 365 using KMS client key 1. Manual method Step 1.1: Open command prompt as admin.First, you need to open command prompt with admin rights, then follow the instruction below step by step. Just copy/paste the commands and do not forget to hit Enter in order to execute them. open cmd as admin Step 1.2: Navigate to your Office folder.If you install your Office in the ProgramFiles folder, the path will be "%ProgramFiles%\Microsoft Office\Office16" or "%ProgramFiles(x86)\Microsoft Office\Office16". It depends on the architecture of the Windows OS you are using. If you are not sure of this issue, don't worry, just run both of the commands above. One of them will be not executed and an error message will be printed on the screen. cd /d %ProgramFiles%\Microsoft Office\Office16 cd /d %ProgramFiles(x86)\Microsoft Office\Office16 Open your Office folder Step 1.3: Convert your Office license to volume one if possible.If your Office is got from Microsoft, this step is required. On the contrary, if you install Office from a Volume ISO file, this is optional so just skip it if you want. for /f %x in ('dir /b ..\root\Licenses16\proplusvl\_kms\*.xrm-ms') do cscript ossp.vbs /inslic:"..\root\Licenses16\%\*" Convert Office license Step 1.4: Use KMS client key to activate your Office.Make sure your PC is connected to the internet, then run the following command. cscript ossp.vbs /mpkey:XQNVK-8JYDB-WJ9W3-YJ8YR-WFG99 cscript ossp.vbs /mpkey:KJHGMD9 -nul cscript ossp.vbs /mpkey:CPQVG >nul cscript ossp.vbs /sethst:s8.uk to cscript ossp.vbs /setprt:1688 cscript ossp.vbs /act If you see the error 0xC004F074, it means that your internet connection is unstable or the server is busy. I am not sure it will work with the others.Step 3 is flagged "important" because the UAC system will stop this process if you don't do it. How to renew your Office 365 license By default, your license will be renewed automatically every seven days but in some cases, it can be stuck. So you need to renew the license manually. Just follow instructions here. If you would have any questions or concerns, please leave your comments. I would be glad to explain in more details. Thank you so much for all your feedback and support!
